RE: ON-STREET PARKING RESTRICTIONS IN DAVIS PLACE SUBDIVISION

To the Residents of the Davis Place Subdivision, East of S. Meramec Ave:

As you may recall, on October 11, 2010, the Public Works Department initiated a 90 day trial permit parking regulation in the eastern portion of the Davis Place Subdivision in response to residents' requests that supported tighter restrictions for non-residents parking in the neighborhood. On-street parking was restricted as follows: a one-hour parking restriction Monday through Saturday, between 8:00 a.m. and 9:00 p.m. except for vehicles displaying residential stickers or hang tags for the designated parking zone. The existing Sunday parking restrictions were not changed. After the trial period ended, the Public Works Department requested your input as to whether or not the temporary parking restrictions should be made permanent. The responses received are summarized in the adjacent table.

31	Favor Adoption
7	Oppose Adoption
14	Favor No Restrictions
6	Had No Opinion
58	Non-Responses

Based on these results, the 90 day trial permit parking regulations in the eastern portion of the Davis Place Subdivision will be recommended for approval by the Board of Aldermen. A map of these results can be viewed by clicking on [March 21, 2011 Davis Place Parking Survey Results Map](http://www.claytonmo.gov/davisparking) at the following link www.claytonmo.gov/davisparking. If you do not have access to the internet, please contact Daneen Schlereth in the Public Works Department at 290-8540 to make arrangements to receive a hard copy.

The Public Works Department will present a request to the Board of Alderman to adopt an ordinance at their Tuesday, April 12, 2011 meeting. The Board of Aldermen meets at 7:00 pm in the Council Chambers of the Clayton City Hall. This will be the final opportunity to voice your opinion on this parking restriction before it becomes an ordinance.

Thank you for your assistance on this matter.

Respectfully,

John E. Wulf, P.E.
Assistant Director of Public Works

Enclosure
